SKILLS

- Languages :- Python , javascript , java , PHP , C++ , HTML , TAILWIND CSS
- Databases :- SQL , PostgreSQL , MongoDB .

• AWS	• NextJS	• REACTJS	• NODEJS
• Vercel	• Tableau	• AI and ML	

ACHIEVEMENTS AND CERTIFICATION

1. SIH HackaThon :- Got the 3rd rank in smart india hackathon in application which prevents a DDO'S attacks based on AWS held in symbiosis skills and professional university.
2. Advanced SQL :- got the certification from leetcode for solving complex MySQL queries which is SQL50.
3. Fullstach Developer :- From udemy by Dr.Angela Yu.

PROFESSIONAL EXPERIENCE

A3M NextGen   **JUN 2023 - AUG 2023**
frontend development Intern
During my first year at A3M NextGen, I focused on strengthening my foundation in development languages and advanced JavaScript, including DOM manipulation techniques. I contributed to real-time projects, enhancing user interfaces to improve responsiveness and interactivity, which deepened my understanding of front-end development and user experience optimization.

A3M NextGen   **JUN 2024 - AUG 2024**
FullStach NextJS Developer
In my second year at A3M NextGen, I worked as a JavaScript developer, focusing on API integration, security-focused tasks like payment processing, and developing WordPress bots. I led full-stack, real-time projects, including a critical police project for CDR (Call Detail Record) analysis, enhancing my skills in secure data handling and project leadership.

PROJECTS

- **FullStach Grocery Store :-**
  Developed a full-stack grocery store application using Next.js, Node.js, and Strapi CMS. Leveraged modern technologies like Tailwind CSS and shadcn for an intuitive, responsive UI. The application includes user authentication, product listings, and a streamlined checkout process, providing an efficient and engaging shopping experience.

- **Personal portfolio :-**
  Crafted a personal portfolio highlighting my professional journey and technical expertise with an intuitive, sleek design. Built with a focus on responsiveness and ease of navigation, it effectively showcases my skills, projects, and achievements, allowing visitors to connect with me easily. Integrated email functionality ensures seamless communication with potential clients or collaborators.

- **Car-On-Rental Application (FrontEnd) :-**
  Developed a front-end car rental application, 'CarOnRental,' featuring user authentication through Clerk and a sleek interface powered by Acertinity UI. Leveraged Vercel for seamless deployment, incorporating the latest technologies to deliver a responsive and user-friendly experience with detailed vehicle listings and booking capabilities.
